c. Illness [] underwent an emergency appendectomy at Georgetown University Hospital Monday night.

4. Other items of interest:

a. New DDI Dr. R. Jack Smith is being reassigned from his position as Deputy Director for Intelligence. Dr. Edward W. Proctor, who has been ADD/I will be assigned as DD/I about mid-May. Dr. Proctor's deputy will be announced later.

b. Retirement Legislation On 31 March we told you that it then seemed unlikely the Civil Service Commission proposal to change the retirement law to compute annuities on the basis of the last CLI or at the date of retirement, whichever is greater, would become law by 31 May 1971. As you may have read in yesterday's Washington Post, the prediction now is that this proposal has a chance of passage by 31 May. Should it pass, only participants in the Civil Service Retirement System would be affected at this time. As you know, we have not publicized this possible amendment to the Civil Service Act to those people abroad since most retirement eligibles abroad will have qualified for retirement under CIARDS.

d. Education Allowance [] to enable payment of educational allowances for children entering the first grade at age 5 instead of the previous age of 5 years and 8 months. It is still not possible to authorize an allowance for children attending kindergarten, but as you know [] is seeking legislation on this point.

e. Purchase of Nonstandard Furnishings The General Services Administration has sent a memorandum to the Heads of Executive Departments and Agencies pointing out that there has been some adverse publicity recently regarding the purchase of nonstandard furniture and furnishings by certain officials. The ADD/S has instructed the Director of Logistics that while Agency command endorses our efforts in improving our work environment, those efforts should be within the limits of the basic Building plan and regular GSA stocked furniture and accessories, including carpets.
